Canal Point, Fla.

WEST COAST ROADS EXTEND EASTWARD

New Connections With The
Conners Highway via
Canal Point

MANATEE CO. PROGRAM

Bradenton and Avon Park To
Be Linked; DeSoto and
Hardee Also Joined

Construction of roads financed by the
voting in Manatee county of bonds for
\$140,000 will open another cross-state
highway connecting with Conners
Highway via Canal Point. The new
Manatee highway will link the Avon
Park-Vanichula road which is just be-
ing completed by Avon Park district
and Hardee county and bring
Sarasota into a half day's drive of
Palm Beach.

The road building program in De-
Soto county which was halted by the
railroads' embargo on road material
was resumed last week. DeSoto county
is east of Manatee county and south
of Hardee county. A road is being
built through DeSoto county on a north
and south line and another on an east
and west line. Connections will be had
with Glades county's road and Fort
Myers, giving two outlets to the Lake
Okeechobee region.

The 32 miles of unfinished Tamiami
Trail in Dade county will be completed
with an oiled surface to the Collier
county line under the direction of the
state road department. Officials of the
department will accept a \$125,000 con-
tribution from Dade county that was
included in a county-wide bond issue
voted several months ago.

A million-dollar road program has
been launched in St. Lucie county, one
of the projects being for 50 miles. Of
road westward from Vero to be part of
a new cross-state highway. The other is
for a network of roads west of Fort
Pierce, where ditch and canal construction
has just been completed in a big
drainage district.

The county commissioners of Polk
county have fixed April 7 as the date
for holding a \$250,000 bond election
for special district to be known as No.
12 if created. Thirty-one miles of con-
struction is to be done in making 14
proposed roads.

Bonds of special district No. 7 in
Pinellas county, at Tarpon Springs,
were sold last week at \$761 to Cald-
well & Company of Nashville, Tenn.
Resolutions are being prepared under
which the county commissioners of
Broward county will call an election to
authorize \$1,500,000 bonds as a county-
wide proposition. The money will be
divided between creek front and Ever-
glades locations.

Contract for surfacing the Highlands
county road from Sebring to the Glades
county line has been let at a price of
112 cents per square yard, a total of
\$20,160. This will connect with the
Glades county road at Palmdale.

Road contractors in Lee county are
making good progress under funds pro-
vided a few months ago by the sale of
\$100,000 of road bonds. On the Fort
Myers-Palm Beach boulevard the road
is complete to Buckingham, the marl is
on as far as Biggs, and the rock is be-
ing put on in the road between Buck-
ingham and Oke. The Champion Bridge
Company have their crew here and are
at work constructing the new steel
bridge at Alva. The old bridge is be-
ing maintained until the steel is all in
place on the new bridge, so there will be
as little inconvenience to the people
as possible. On the Tamiami Trail
south of Fort Myers the haze is in place
on three miles of the road, and much
other work is completed. The Morgan-
Hill Construction Company are to be
contracted on the speed they are
making on this road as well as the road
up the river and the Crescent Beach
road in Charlotte county. Boone &
Wester, are now making good speed
on the surfacing of the Tamiami Trail
and expect to have the work completed
by April 1st. They now have about a
mile and a half yet to surface. The
Punta Gorda road is now completed
with the exception of a mile and one-
half of hard surfacing. The entire job
is expected to be finished in three
weeks, the contractors stated.

New rock-surfaced highway to be
built along the South New river drain-
age canal in Broward county in an al-
most due westerly direction to the in-
tersection of that canal with the Mi-
ami canal, some ten miles above the
Pennsylvania Sugar Company's sugar
mill, portlands extensive and most im-
portant improvement and development
in the south Broward and north Dade
county sections of the Everglades, says
the Miami Herald, which adds that the
new road will afford a loop highway
from Fort Lauderdale south and west
way of Davids and along the South
New river canal to its junction with the
Miami canal, thence into Miami.

Additional drainage in this section,
including the building of the Biscayne
canal, outlined for the present year,
will naturally open up much new lands
in the Everglades and west of Miami,
which will soon be made available for
farming and add materially to the pro-
ductive area of Broward and Dade
counties. It is now apparent that own-
ers of many of the smaller acreage
tracts adjacent to the proposed drainage
road improvements will prepare to
dike their lands and make them safe
from overflow in rainy seasons.

Northern base ball teams training in
Florida are playing many exhibition
games.

COMMUNITY GOSSIP

Sanitary conditions have been dis-
cussed at meetings of the Women's
Club and the Men's Club recently and
the decision is that for the moment
nothing more can be done than to keep
on talking about it, with the hope of get-
ting people more interested and get-
ting a better and more general under-
standing of the fact that something
definite will have to be done later if
not now. It is an important matter
because Canal Point's problem is also
the problem of Chosen, Belle Glade
and South Bay—I say "problem" be-
cause everybody else uses that word,
although actually I do not think it is a
problem. Every statement of alleged
impossibility and seeming difficulty is
overcome by the fact that what some
people cannot be done at Canal Point
has been done at Moore Haven. Moore
Haven is built in the muck; when the
town was founded the drainage was
not even as good as it is at Canal
Point, but a sewer system was put in
and has been maintained in better con-
dition than West Palm Beach's sewer
system was seven years ago. Ignorance
or lack of disposition to act is the only
reason for the claim that the disposal
of sewage is difficult in Canal Point.
I say ignorance because some people
here talk about the "flatness" of the
land; it is no flatter here than on the
western prairies, and sewage is dis-
posed of there by means that can be
used here if there is a desire to use it.
The fact, of course, is that there
cannot be sewer disposal unless there is
a sewage system—pipes connected
with houses and discharging to an out-
let, and that calls for a water system,
and a water system calls for incorpora-
tion. The whole thing turns on that,
the water system would give water for
bath rooms; it would make it easier on
the women of the community, and the
reduction in the fire insurance rate
would be almost as much as the inter-
est on the bonds for a water system.

Canal Point doesn't smell good in the
hot days of mid-summer. That may
not have made any difference a year or
so ago but now a good many travelers
ride into the town on the highway and
they notice it and they comment on it.
The travelers know what the source of
the odor is and they know that the
condition it grows out of could be cor-
rected and it is not surprising if they
do, for this kind of thing has been
done in Tampa and that is a big town
to take it. When—or if—a cross-state
road extends through towns at the
south end of the lake, there will be the
same argument that goes on in Canal
Point now. Miami is a great and beau-
tiful city now, but people are still liv-
ing there who recall the fight that had
to be made to get incorporation and
public improvements. Towns were plat-
ed elsewhere in Florida long ago and
settlements started but they were not
incorporated and they did not make
improvements and they languished and
died. Canal Point is not going to
languish; the communities at the south
end of the lake are not going to
languish—all are going to grow, and
whether some of the people like it or
not, and despite their protestations, the
towns are going to be incorporated and
improvements are going to be put in.
The shame they will expose themselves
to will force it if nothing else does.

S. A. L. MAIL SERVICE

OKEECHOBEE, March 1.—Post-
master: Please to receive official notice
that mail service would be in-
augurated April 1 over the Seaboard
Air Line's new cross-state railroad, Oke-
echobee to Tampa and Palm Beach. This
will give four mail trains a day. The
new service will cut the time of deliv-
ery there from the old time of four
in half. It will be possible then for a
letter sent from Miami to Okeechobee
to get there the same day instead of
four days as at present.

OKEECHOBEE SALES

A syndicate headed by Joseph A.
Shay, a New York lawyer, has bought
18,400 acres adjacent to the Okeechobee
township and Conners Highway
and the Seaboard Air Line railroad.
Other members of the syndicate are
Burguières & Chipley and E. U. Roddy
of West Palm Beach real estate men
who handled the deal; John C. Gregory,
S. T. Lainsfort and C. A. Woodruff of
West Palm Beach; E. C. Donnelly, ad-
vertising man, Boston; A. Bjorson,
banker, Brooklyn; Lee Schubert, the
atrical man, New York; and other
northern men who have interests in
South Florida.

Another syndicate has bought 9,120
acres west of Okeechobee adjacent to
state road No. 8 from G. Shannon of
West Palm Beach. Shannon bought
the tract recently from Giblin Skipper
of Fort Lauderdale.

NOTICE

To All Whom It May Concern:
You will please take notice that
there will be presented to the Legis-
lature of the State of Florida at its next
regular session, a proposed bill incor-
porating the Town of Canal Point to
include the following described territory
in Palm Beach County, Florida, to-wit:

The West Half (W1-2) of fractional
Section Twenty-three (23), the North-
west Quarter (NW1-4) and the West
Half (W1-2) of the Southwest Quarter
(SW1-4) of Section Twenty-six (26),
all of fractional Section Twenty-seven
(27), the West Half (W1-2) and the
West Half (W1-2) of the Northeast
Quarter NE1-4 of Section Thirty-four
(34), and all of fractional Section
Thirty-three (33), all in Township
Forty-one (41) South, Range Thirty-
seven (37) East.

I, D. Simon, Attorney
3-20, 27; 4-3, 10, 17, 24; 5-1, 8, 15.

A. B. Gray has bought a Ford truck
from B. Elliott. He has had the interior
of his building painted.
J. E. Cochran has bought a new
Ford truck from B. Elliott.
Mr. and Mrs. Hudson have returned
from a visit to Orlando.

McClure & Friend received a check
for \$909 for 200 hampers of beans.
Mrs. D. S. Spooner, who has been
on the sick list, is able to be up again.
Little Oliver Stapler fell from his
high chair and broke his arm last
week.

Miss Lula Barfield has returned from
a visit of several days in West Palm
Beach.

The writer wishes to say in behalf
of our town that we are very proud of
our Pahokee orchestra.

Friends of Mrs. Hughes are sorry
that she is very sick with cold. We
wish her a speedy recovery.

J. F. Waters has received an inquiry
from a gentleman in Seward, Alaska,
about the East Beach land.

The red top packing house is being
remodeled. There will be tomatoes
packed there week after next.

James Maxwell has bought a pile
driving outfit. He is to build Pahokee
dock, beginning work immediately.

An 8-pound daughter was born Sat-
urday to Mr. and Mrs. George Craw-
ford. Mrs. Crawford is staying in
West Palm Beach during her convales-
cence, following her stay in the hospi-
tal.

A. W. Hamilton, a railroad man
from Atlanta, visited W. C. Rucker this
week and had some interesting experi-
ences fishing with him and Dr. Spooner.

The Woman's Club play was a grand
success. Receipts were \$46.28. This
goes to the building fund of \$300, a
total of \$346.26.

Mrs. French and Little daughter,
Dorotha, who have been visiting Mr.
and Mrs. A. Kaltenbruner, left Sunday
for their home in Detroit. Mr. and
Mrs. Kaltenbruner took them over to
West Palm Beach in their new Star-
car.

Mrs. H. C. Graham and Mrs. John
Hattaway and children attended the
holistic Jones show in West Palm
Beach last week.

Bean crop is fine on East Beach.
Hull Bros. picked 700 hampers of beans

last Friday, making 2200 hampers ship-
ped by these men this season, getting
good prices for all.
Prayer meeting and choir practice at
M. E. Church on Wednesday evening
and at the Baptist church Thursday
evening. Let's not get too busy to at-
tend these meetings, giving thanks for
the bounteous bean crop.

PEOPLE WE KNOW

C. L. Dugger, who used to live at
Pahokee, writes to have the address of
his paper changed from Summerdale,
Fla., to Foley, Ala.

James M. Burguiere of West Palm
Beach, passed through Canal Point
this week on a trip to and from Fort
Myers.

Mr. J. L. Kirby of St. Joseph, Mo.,
who with her husband visited East
Beach last week, writes on a postal
card postmarked Birmingham, Ala.,
March 19: "Please mail me this week's
copy of The Everglades News. I am
anxious to know all about the fire. We
had a fine time in Palm Beach and all
around."

The Goff brothers (G. K. and D. L.)
who are farming at Clewiston, passed
through Canal Point the latter part of
last week on their way to Okeechobee
for a visit. They have shipped their
beans and peas and their tomatoes will
come off about the middle of April.

INSPECTION BY ENGINEER
County Engineer George O. Butler
and County Commissioner Dempsey of
the Jupiter district visited Canal Point
the latter part of last week. Mr. But-
ler looked at the piling driven around
Bridgetender Todd's house by Newt
Verner's contract gang to see what next
was to be done. Mr. Dempsey said the
Indian town-Jupiter road has been put
in fine shape and will be well main-
tained.

NOTICE

Notice is hereby given that the Legis-
lature of Florida will at the Regular
Session, 1925, be requested to pass
Special Acts relating to the following:

1. An Act authorizing the Board of
Supervisors of the Palm City Drainage
District in Palm Beach County, Florida,
to issue and sell bonds not to exceed
Twenty Thousand Dollars par value, to
liquidate outstanding indebtedness of
the District.

2. An Act authorizing the Board of
Supervisors of the Highlands Glades
Drainage District in Palm Beach
County, Florida, to issue and sell bonds
not to exceed One Hundred Thousand
Dollars par value, to provide funds to
complete the work under its present
Plan of Reclamation, or any amended
Plan of Reclamation, or any system of
dikes and pumping that may be adopted
for said Highlands Glades Drainage
District.

This February 17, 1925.
C. C. Chillingworth

NOTICE OF ELECTION OF SUP-
ERVISOR FOR PAHOKEE DRAIN-
AGE DISTRICT.

A meeting of the owners of the lands
situated in Pahokee Drainage District
of Palm Beach County, Florida, is here-
by called for 3 o'clock p. m., the 31st
day of March, A. D. 1925, at the office
of the Board of Supervisors of Pahokee
Drainage District in the Town of Pa-
hokee, Florida, for the purpose of elect-
ing one supervisor for the term of three
years, which supervisor to be elected
shall be an owner of lands in said Dis-
trict. Each acre of land in said District
shall be entitled to one vote by the own-
er in person or by proxy duly signed.
By order of the Board of Super-
visors of Pahokee Drainage District,
this 24 day of March, A. D. 1925.

CANAL POINT

Louis Goolbsy of the News office made a business visit to the seat Wednesday.

The Canal Point Woman's Club will be entertained next Tuesday by Mrs. Frank O'Connell at Mrs. A. L. Pope's.

J. A. Kimbrough, a bean buyer from Deerfield, came out to the Canal Point Monday to see whether rain did as much damage here as it did on the east coast.

C. H. Baker of Jacksonville, state agent for an insurance company, stopped here Friday to call on his brother, Robert M. Baker, manager of the Highway store. He makes a tour of the state every year and was here last spring.

Sam Barrett of Fort Lauderdale, employed with Upthegrove's pilerdriver crew, was hurt Saturday and was taken to Good Samaritan hospital in West Palm Beach by John Allgood. The injury was to Barrett's head.

W. H. Hoodless of Philadelphia, Pa. general manager of the Pennsylvania Sugar Company, Wednesday visited the Canal Point mill and plantation of the Florida Sugar & Food Products Company. His company has a refinery in Philadelphia and a plantation and mill on Miami canal in Dade county.

C. C. Wainwright of West Palm Beach, who had charge of M. P. Meyer's draglines when grade for Connors Highway was made, stopped in Canal Point Tuesday. His company has a contract on the west side of the lake on which three machines will be used. He said that H. H. Franklin, Raymond Casson, S. E. Wilson and Earl Douglas, all of whom have worked on East Beach, will be on machines on Indian Prairie. Rev. and Mrs. Wm. Jesse Thomas left yesterday morning on their last trip of the conference year around their circuit. They will visit Fort Myers on church business connected with the Immokalee charge. After closing up the year's work at Immokalee and Palm-dale, they plan to return to Canal Point to hold Easter services on April 12th at 3 p. m. The ceremony of baptism will be performed for several children immediately after the other services. Any parents wishing their children baptized at this time will please communicate with Rev. or Mrs. Thomas before this time.

C. P. H. S. NEWS

By Sadie Cochran

Miss Juanita Elliott returned to school Monday after being absent Tuesday. County Superintendent Youngblood and Mr. Haynie of Gainesville visited C. P. H. S. Friday.

Witt and Lowell Guise were absent Tuesday.

The seniors have ordered their class rings and the eighth graders have sent for their class pins.

The minstrel which is to be given by the high school is progressing rapidly.

C. P. H. PROGRAM

On Wednesday, April 15, at 8 p. m., the primary department will give a program.

Thursday, April 16, 8 p. m., high school class night.

Friday, April 17, 8 p. m., senior graduation.

The pupils are busy reviewing and preparing for examinations, which will begin April 9.

Topics discussed by the pupils of the junior-senior class: Lillian Shive, Lord Byron's "Prisoner of Chillon"; Sadie Cochran, Alfred Tennyson's "Enoch Arden"; S. E. Gamage gave an interesting talk on radio.

JOKES

Sadie—Mr. Asson, can anyone be punished for what they haven't done?
Mr. Asson—No. Why?
Sadie—Well, I haven't done my geometry.

S. S. PROGRAM

The following program was given Saturday evening for the benefit of those interested in assisting the M. E. Sunday school to raise an offering for the benevolence fund:

Song, "America, the Beautiful," by Sunday school.

Prayer, Rev. Thomas.

Recitation, "The Owl," Aline Murphy; Song, "Little Feet, Be Careful," Barbara Baker, Eva May Lowe, Dorothy Griffin, Aline Murphy, Juanita Stuckey, Elizabeth Brigham, Emily Carter.

Recitation, "Teaching Betsy," Elizabeth Brigham.

Reading, "Your Mission," Emily Carter.

Recitation, "Spoiled Children," Barbara Baker.

Piano solo, Mrs. Graham.

Talk by Rev. Thomas.

Piano solo, Cleo Griffin.

Benediction.

The program was in charge of the Misses Ruby Lowe and Cleo Griffin and

Mrs. Lewis.

After the program the young ladies served all present with all the ice cream, cakes and punch they would accept.

Rev. Wm. Jesse Thomas held a quarterly conference at the M. E. church Sunday, March 22. The following were elected to serve as trustees of the church for the ensuing year: C. W. Silvers, W. A. Adams and Grady Raeburn. Mrs. W. A. Adams was appointed secretary-treasurer. The board of stewards was organized as follows: A. L. Pope, district steward; J. N. Tyner, reserve district steward; Mrs. Jack Barrett, recording steward; E. A. Clugston, communion steward, and Ray Clusson, directing steward of recreational life.

CALLERS

Dr. I. J. Herrick, formerly of Appleton, Wis., and now living at Boynton, drove up Saturday to visit the sugar mill and see the cane plantation. Seven years ago he bought 40 acres of land on Hillsboro canal near Gladecest with the idea of engaging in general farming. "All this country was dry often," he commented Saturday. Dr. Herrick came down last summer intending to develop his Hillsboro canal tract but the flood came on in October so he did some truck farming at Boynton. Now he is putting out bananas on seven acres of Dr. J. C. Crist's land at Boynton. He says Dr. Crist has sold \$3000 worth of bulbs to the Gladeview Farms on the cross canal. Dr. Herrick's land adjoins the Jones chicken farm at Gladecest.

A. S. Anderson and J. W. McElwain of Tampa and Ray Jenkins of LaBelle were members of a party that stopped in Canal Point Friday. They had been to West Palm Beach on a deal for the sale of the J. M. Parker acreage and were on their way home. Mr. Anderson was formerly manager of the De Soto ranch and still has an interest in it. He says everyone on that side of the lake is desirous that drainage be effected and all are willing to pay the necessary taxes.

R. S. Miller, whose northern home is Akron, Ohio, came out Sunday. He is a salesman for an east coast subdivision and his sight of Everglades development gave him arguments for use in his selling talks by telling of the coast cities' back country.

W. J. Blalock of Norfolk, Va., head of a commission firm in that city and also of the Blalock Fruit & Produce Company of Richmond, Va., stopped in

Canal Point Saturday. He is making a tour of Florida vegetable districts. Both of his houses are bugged, the Virginia law requiring that. Mr. Blalock has inserted an advertisement in The Everglades News and solicits shipments of beans, tomatoes and all other vegetables produced in this section.

HENDRY COUNTY

LA BELLE. March 20.—An acre and a half of land at Fort Thompson Park, fronting the cross-street, has been prepared by Berry Scott as a seedbed in which the seed of rubber trees are to be planted, this being part of the experimental work to be done for Henry Ford, who a year ago took over the Goodno ranch. The seed are to be planted in rows two feet apart; the plants are expected to be large enough to transplant in three or four months, meanwhile about 200 acres of the ranch will be prepared to receive the young trees. This is another experimental plot near Goodno station, where trees are reported to be doing well except a few that were killed by high water in November.

H. G. Morrow & Company of Jacksonville have a subdivision in LaBelle and have bought the Questend subdivision from J. G. Attanasio and E. M. Cornette. J. R. Doty has subdivided block 44; H. L. Stewart has subdivided block 10, and Selden L. Stewart has subdivided blocks 15, 33 and 34. Brainard Bros. of New York have bought the LaBelle Heights tract of 10,000 acres five miles north of LaBelle. The Buchanan place (the old Captain Hendry home), the Dykes place adjoining the bank and considerable acreage along the river have been sold.

The building committee of the Methodist church has inspected plans offered by Contractor Johnson which provide for a building of Spanish style with a seating capacity of 250 in the main auditorium and a smaller hall to complete those on hand will be started at once.

A new charter for LaBelle is recommended by J. R. Doty, who has resigned as town clerk to begin his service as member of the legislature.

OKEECHOBEE

The Okeechobee News says W. J. Conners is having his lake front property cleared.

F. E. Lawrence, city engineer, has purchased a tract 300 feet wide and one mile long, extending from the western edge of the city limits along the south side of the Seaboard Air Line tracks. The property is to be cleared and put into an industrial subdivision for warehouses and factory sites.

H. S. Firestone of Akron, Ohio, head of a big rubber company, passed through Okeechobee last week en route to Fort Myers. He was accompanied by his son Russell. Mr. Firestone originated the slogan "America should produce its own rubber" and introduced Henry Ford to his experiments near LaBelle.

Otto E. Schariswerdt, member of a hardware firm having interests in Okeechobee and Fort Pierce, was killed five miles west of Fort Pierce when a tractor he was driving turned over on him. He was 32 years old, a pioneer settler in the part of St. Lucie county that was formerly cut off, and made Okeechobee county, and had a wide acquaintance on East Beach.

WEST PALM BEACH

Campaign for funds for a Y. M. C. A. building is under way this week. John B. Orr of Miami, a Sher and building contractor, was elected district governor of Rotary at the convention held Saturday.

Addition of a 40-ton unit to the incinerator, construction of a garage to house all city vehicles and installation of a switchboard in the city building are items on the new city manager's program.

H. E. Bemis, vice president, announces that the Breakers hotel which burned last week will be rebuilt. He declined, however, to give details. Unofficially it was stated that the new house would be planned to house 500 guests.

E. T. Cauthorne of Miami, engineer of the train Florida, was injured Sunday morning when his train ran into F. E. C. local passenger No. 37 twelve miles north of West Palm Beach. Cauthorne and his fireman leaped from their engine cab. A torrent of rain prevented the engineer from seeing the signal ahead of him.

PALM BEACH COUNTY

Construction of Delray's municipal golf course is under way. The Lake Worth Tourist Club held its last meeting of the season on Wednesday.

Eighty-five thousand dollars of school bonds will be voted in the Delray district April 1.

The Delray post office will go into second class rating this summer and the inauguration of free mail delivery will follow.

J. A. Sumpter of Delray has been arrested on a charge that he had medical prescriptions without having procured a license.

Rodman W. Alexander II of New York and Philadelphia is reported to have bought a large tract at Boca Raton inlet at a price of nearly a million dollars.

Publication was made in the Developer this week of the proposed new charter for the city of Stuart. Change from the aldermanic, or town council system, to the commission form of city government is proposed.

With him in it, Harry Kelsey's automobile fell through a bridge at Prosperity and went into the water. H. C. Rorick, the Toledo, Ohio, bond buyer, had declined to take a chance on the bridge and gotten out of the car.

Officers of the Palm Beach County Real Estate Board for the new fiscal year are: President, Frank A. Huston; vice president, F. J. Anderson; secre-

tary, Mrs. C. H. Price; treasurer, O. B. Carr; board of directors, L. E. Heiser, J. B. McGinley, George R. Kline, J. vonBehren and W. M. Hansen. They were installed at a meeting held in West Palm Beach Monday.

John E. Varnedoe, formerly of West Point, Ga., and later of Battle Creek, Mich., has bought the Babcock Garage at Stuart from Bert H. and A. M. Babcock and taken it over, together with the agency for Hudson and Essex motor cars. The Babcocks will remain in Stuart. Mrs. Varnedoe announced his purchase of the business in a page ad in one of the Stuart papers and a half page in the other.

OKEELANTA

(Received too late for last week.) OKEELANTA, March 18.—The sawgrass fire, sweeping up from the south-east to the Bolles canal on the west side of North New River canal the fore part of last week, did no damage, but proved an inexpressibly grand sight to those who watched the waving, racing mass of flame in the faint light of a waning moon. It was nature's own way of staging a moving picture.

Robert Cooper, who spent almost two years here with his folks, left last Saturday for New York, where lucrative employment awaits him.

John Anjima, after a successful trapping season, is now a member of Earl Dantle's dredge crew, clearing out water hyacinths in Lauderdale canal.

Our local merchant, Mr. E. J. Cooper, has disposed of his mare, wagon and harness to Mr. Dean one of the "lucky gamblers" in string beans on the lake shore.

Every settler south of Lake Okeechobee feels hopeful that under our present state administration, the reclamation of their part of the Glades will be transferred from the committee on irrigation to that of drainage.

The Little's, new settlers on the long collected Miami canal, visited last Monday their tract of land near Canal Point. They returned Tuesday, stopping for a short time at the hotel with Mr. and Mrs. Covel.

Some minor improvements are being made by the residents to their homes now that the water has moved off or been evaporated. It is still too wet in this vicinity for plowing and planting. The Glades fire, which raged along the Bolles canal westward, brought as a visit of the deputy fire warden, Clare Greer.

SOUTH FLORIDA

The Broward County Real Estate Board has arranged for the erection of a two-story building this summer, eight other stories to be added later.

It gives a line on real estate values in a section of South Florida to say that Alfred A. Tano of West Palm Beach is advertising land in Hardee county in blocks of 1000 acres and up at \$35 an acre. It is hard for \$300 an acre to come to compare with this.

Decision to ask the legislature to create "Redlands county" by taking the south end of Dade county and part of Monroe county was reached at a meeting of the Redlands Country Club and directors of the Homestead Chamber of Commerce.

The East Coast Chamber of Commerce will hold a meeting at Homestead in April. Twenty-seven thousand people attended the last races of the season run at Atlantic City last week.

BIG BOND ISSUES TO HELP SCHOOLS

Palm Beach County Not Out List Of Localities Where Elections Have Been Held

A bond issue for \$3,800,000, the largest ever asked for school purposes in any district in Florida, will be voted on in district No. 2 of Dade county Tuesday, April 21. This amount includes \$250,000 for the purchase of a site for the Miami senior high school but does not provide for the erection of the building which it is expected will cost almost \$1,900,000. It is proposed to hold a second bond election in July to provide money for buildings. Further sums will be voted in other special tax districts in Dade county.

Validation of Tampa's \$1,000,000 bond issue for the most extensive school building program ever undertaken in that city was approved by the supreme court last week, which the Tribune says, means that the construction will proceed without delays. The bonds have already been sold.

A bond issue of \$1,050,000 was voted in the St. Petersburg district of Pinellas county the first week in March. A 20-acre site was bought for \$130,000 and a \$750,000 building will be erected on it. The balance of the money will go to other school improvements in the district.

By a vote of a ratio of 20 to 1, a \$155,000 school bond issue carried at Schriber the second week in March. The new building will be ready for occupancy by the opening of the fall term. School boards are to be voted in St. Lucie county districts at the election April 14.

The board of education of Lee county canvassed the vote for the \$350,000 bond issue for new school houses and additions to buildings already in use. They found that the vote had carried and instructed the attorney to make preparations to advertise for bids on a new building in the west part of Fort Myers, addition to junior high and the Ederwood school building and another building in Safety Hill is arranged for in the building program.

DRAINAGE WORK IN MIAMI DISTRICTS

City Developments Extended Into Lower Glades; Other Drainage Items

At the present rate of progress, the Snapper creek canal south of Miami will be connected with the Tamiami canal about 18 months, according to an official of the Southern drainage district. This canal, together with the Coral Gables canal which is being dug from the bay to a point where the branch Tamiami canal meets West Flagler street, will extend the city into the lower Everglades. The Coral Gables canal is 200 feet wide and will run from Cocoplum beach through the various subdivisions, while the Snapper creek canal runs from the bay to a point a few miles below the Coral Gables canal and is being made 75 feet wide.

Contract was let to the T. T. Sweet Dredging Company of Iowa for construction of Biscayne drainage canal north of Miami. The district comprises 6,880 acres and the canal will connect Miami canal and the bay. The canal will be 75 feet wide with an average depth at low water of 12 feet. It is expected to connect the Everglades and the bay. Lindsay & Rosborough have taken over from the Sweet company a sub-contract for the part of the canal through the Golf Park tract. D. E. Clune of Miami is the chief engineer of the Biscayne Bay drainage district.

W. A. Johnson and other residents of Fort Ogden are organizing a drainage district of 15,000 acres and have employed Eugene Abbotson of Arcadia as the engineer. There is a boom on at Fort Ogden, this being the point to which the Atlantic Coast Line is to extend from Sarasota.

A district is being organized to put in a canal between Lake Hamilton and Lake Eva and thence to Lake Tracy at Haines City and drain all of the marshes around Haines City. The work will cost about \$100,000.

At the annual meeting of the Melbourne-Tillman district in March F. C. Powell was re-elected supervisor. Ernest H. Every secretary and H. L. Ewing treasurer. There are \$6,000 acres in the district. Locke Davidson of Wichita, Kansas, president as chairman of the annual meeting.

GLADES LAND SALES

MIAMI, March 22.—Everglades land aggregating more than 11,000 acres has been sold by Philip S. Delany & Company through H. L. Town of Junkin & Erdmans Company. This property lies along the Miami canal about five miles northwest of the sugar mill of the Pennsylvania Company. It is all virgin land and is believed to be one of the Dade drainage district.

Cape Sable property comprising 1,120 acres having a frontage of seven and one-half miles on the Gulf of Mexico and Bay of Florida, was sold to R. E. Hilley and associates by Phil S. Delany and Vance W. Helm.

SOUTH BAY

There are going to be two or three good towns built in the Everglades. South Bay, the South Shore of Lake Okeechobee, will be one of them.

The South Shore lands are some of the richest and are located in the very heart of the Everglades.

This land in the next few years will be the most valuable land in the South. In the next five years with the improvements now started we will be surprised ourselves, along with the whole world.

Do not write. Come and stay long enough to see conditions as they are on the ground. You will imagine just about what will take place in a very short time. I know the South Shore of Lake Okeechobee.

FARM TALK

By Howard Sharp.
A head-line in the first issue of The Everglades News, which was issued on March 11 of last year, read: "Buyers pay \$3.50 a hamper on the dock for good beans," and all of us remember that that was regarded as a mighty good price, but that bean growers made money last spring. The bean shipping season opened earlier this year than last, and prices have been 50 per cent higher, and this season will be longer and the total production will be larger, which makes it certain that growers will make even more money this year than they made last year.

Likewise it appears that the tomato season will be more profitable than in 1924. The issue of The Everglades News of April 18, 1924, said that beans were still moving and that express shipments of tomatoes had been made but the car lot movement of tomatoes would not start until the following week, which would make it a little later than the date set for the 1925 season. The east coast will have less tomatoes than last year and the Everglades will have more; fully as important are the facts that there will be more buyers here and the transportation facilities are better than last year.

The above remarks relate to 1924 and 1925; now let us go further and say that 1926 promises to be as much better than 1925 as 1925 is better than 1924. First, as to beans: The east coast is not likely to have as big acreage of beans in 1926 as it had in 1925, and for this reason: The Oct. 29, 1924, storm gave the land at Delray, Deerfield and Pompano on the west side of the "spruce ridge" a good wetting, and put that land in condition for a fall crop. Ordinarily that land is too dry but the rain in October, unusual in that month, tempted farmers to put in a big acreage. It is not likely that there will be another rain in the late fall of 1925 like that of 1924 and therefore it is not probable that the east coast will have a big acreage of beans to compete with the winter crop. We are certain to make a winter crop in 1925-26; deepening of West Palm Beach canal and cutting of canals and the making of dikes in the Pahokee district insures there will be more dry ground than there has been for four years. Commission men and fertilizer houses are paying attention to what is going on and they are not going to extend credit to commission men like they used to—they know about the Everglades.

To me the finest thing in the outlook is that land owners are not kicking on paying drainage taxes as they were this time a year ago as a year; they have had demonstration of how slowly the ground dries off without drainage and seen that there must be lateral ditches and that the main outlet canals must have capacity to receive and dispose of the water. The thing that The Everglades News demanded in July of last year is coming to pass—the drill charge and the dredge Calcasieu-hatchee are working in West Palm Beach canal and there will hereafter be more discharge of water from the sub-district canals. The officers of the main district are doing their part; land owners in the sub-districts cannot but there is no use of lateral through their land. The Pahokee district pump station ought to be in operation before the end of the coming rainy season, and even if the Pahokee district system does not work perfectly at the start it is bound to be helpful.

The same state of affairs is to prevail around Moore Haven that is in prospect for the Canal Point-Pahokee territory, for over there a good deal of work has been financed and some of it is under way toward the installation of a pumping system in the Diston district that should be in operation at the end of next spring. There will still be a good deal of planting in land that is not under dike and we shall have a chance to see some interesting comparisons. Production of Everglades vegetables will be immensely larger in the spring of 1926 than ever before; east coast planters will take note of this, and will decrease their plantings. I judge. The heavy production in the upper Glades is certain to tempt railroads into construction of extensions and improvements of facilities. And another thing: More careful farming is going to be done in the Everglades than has been the custom. There isn't as much land available, rents are going up, squatters are having to give up their tracts and labor is scarce. Buyers are here on the ground, paying good prices for good vegetables and lower prices for poor stuff. It has been shown that the man who won't subdivide his beans will lose them by rust, and that the man who stakes and prunes his tomatoes will get more crates to the acre. The careless farmer will have to get out and make room for a good farmer who can afford to pay more for the land.

Every business man who has interests in the upper Glades should plan to extend his business, for there is going to be more business. With the Florida East Coast railway already built to Pahokee and in shape to extend to Hillsboro canal this summer, goods can be gotten in more promptly; there will be more buyers and the buyers will have more money. Dealers in construction equipment, lumber, hardware, furniture, farm implements, dry goods, clothing, groceries and drugs will have lots of customers.

Commission Man's View
"This will be the greatest vegetable country in the United States in a few years; the railroad is going to be a bigger help than most people think," says L. Samuels of Philadelphia, veteran commission man, who has spent

several weeks here buying and soliciting beans. "I was through here three years ago and visited Moore Haven and Clewiston, and last year my son was here. This time I came just to see how the farmers handle their shipments and I did not intend to stay more than a few days, for we are specialists in tomatoes and do not have so much to do with beans but I have stayed and I believe we have established a standing in the farmers. We handle, first, Florida tomatoes, then Mississippi and then Jersey. The lower east coast tomato fields have played out—they will never come back. I have been in this business for 32 years and last week I saw some of the good tomatoes as I ever saw anywhere—Mr. W. O. Simmons grew them here at Canal Point."

The Samuels firm has two lots in which they ripen bananas; when the bananas are moved to a room of lower temperature the lots are used to ripen tomatoes and they have built up a good business in "ripening" and hotels and other buyers have learned to depend on it that all of the Samuels tomatoes will be of uniform quality.

"Tomato growers at Canal Point and Pahokee will get more money for their fruit this year than they ever did, if the weather does not go bad, because their stuff will move under better conditions. The tomatoes from here will get a better reputation, if the farmers will keep on doing as they are now, turning and spraying. Other growers will come here and the country will grow and there should be a town of 5000 or 10,000 population on East Beach in a few years."

PLANT ONLY FLORIDA-GROWN SEED, CORN OF GOOD QUALITY

Florida farmers who have not yet planted their seed should be sure that the seed they use is from Florida-grown corn, say forage crop specialists of the Florida Agricultural Experiment Station. Middle western and northern corn may or may not be all right for Florida conditions, but the chances are that it is not as well adapted to this climate as seed grown here in the state, and those planting this western seed are apt to find their yields decreased. Much of his western-grown seed has been noticed in some southerly recently. Florida-grown seed is available, however, should be used wherever possible, say these specialists. However, care should be taken to plant only seed of good quality, even if it is grown in this state.

DO'S AND DON'TS FOR BABY CHICK RAISERS

- Following are 10 very good rules for those who raise baby chicks. They are suggested by N. R. Mehro, poultryman of the University of Florida Agricultural Extension Service.
1. Don't have muddy, filthy runs. Have runs clean and sanitary.
 2. Don't have lice and mites about the place. Disinfect.
 3. Don't have drafts and dampness in the chicken house.
 4. Don't have a stuffy house. Be sure that it is well ventilated.
 5. Don't forget the sunshine. It is a great disinfectant and a preventive of leg weakness.
 6. Don't crowd the chicks in the brooder. Give them plenty of room.
 7. Don't chill the chicks. Keep a steady uniform heat in the brooder. Keep the chicks comfortable.
 8. Don't forget to keep a constant supply of clean, fresh water available.
 9. Don't feed when too young. Wait till the chicks are 36-72 hours old. Supply milk and grit. Feed often and sparingly. Feed a chick scratch and mash and green feed. And don't feed spoiled feed.
 10. Don't neglect the chicks. Pay close attention each day and keep them on the go.

Nicholas B. Hill, New York engineer and neutral member of the board appointed to make a survey of the workings of the West Palm Beach Water Company has arrived to undertake with the other two members the appraisal of the company.

PEACE
Tune: Will there be any stars.
There was once a great war in the kingdom above,
To make peace the great king became low;
And he suffered and died for his kingdom of love,
That sweet peace in his kingdom might grow.

(Chorus)
Oh, what wonderful love in that heavenly land,
Could it enter this world so distressed;
Fill, with love so unselfish, the heart of vile man,
Then this world with sweet peace would be blessed.
If a rebel so mean up to heaven would go,
That he might find some one to deceive,
He'd be told how the Savior had suffered below,
That mean rebels in God might believe.
All the lawyers so great or the armies of man,
Can not bring this sweet peace we have lost;
For the gospel of love is the only true plan,
As was taught by our Lord on the cross.
—FRANK FRIEND.

Most Travel In Dade and Broward Counties

TALLAHASSEE, March 20.—A greater number of motor vehicles crossed over the line between Broward and Dade counties on state road No. 4 than passed any point on the cross-state roads where a traffic census was taken during 1924 by the state road department. It is disclosed by calculations made from the census figures. These figures are compiled by the department for a 24-hour period on one day each month during the year for the purpose of arriving at a definite idea as to where the bulk of the traffic may be found.

On a basis of these figures, it is shown that the Dade-Broward line was the most used point on road No. 4. There 64,500 motor vehicles passed during the year. If the compilations made on the census-taking days were representative of other days during the twelve month period, approximately one-tenth of the machines were trucks.

State road No. 5 at Palmetto, where about one-third of the cars were trucks, was the next most frequently used spot in the state's designated road system. Cars numbering 64,200 passed that spot.

Road No. 3 at Sanford, with 488,735 came third; No. 2 south of Orlando, was fourth with 393,430 machines, and No. 1 at Blackwater Bridge (Milton).

GLADES WEATHER

Everglades Experiment Station, Belle Glade, Fla.
Record of temperature, rainfall and evaporation at Everglades Experiment for week ending March 21, 1925.

Date	Max.	Min.	Rain	Evaporation

Cooperative Observer, Pro Tem.

was fifth with 308.45.
No records were kept on Road No. 8 between Haines City and Fort Pierce.
Road No. 17 at Lakeland and between Tampa and Oldsmar also was used by large numbers of cars as well as No. 24 at Deer Park.

CHOSEN

Rev. Newald and wife of Miami were at Chosen Tuesday and held church services at the Chosen school house. Mr. Newald is the Lutheran pastor at Miami. Rev. Newald baptized the baby daughter of Mr. and Mrs. J. J. Zoch Tuesday evening at the residence of F. W. Kirchman. They named the little one Bernice.

Mr. and Mrs. Horst of Illinois, who are visiting in Miami, came up with Rev. and Mrs. Newald to see the Everglades and were very much impressed with the country.

F. W. Kirchman and son Arnold and F. H. Friedman drove to Palm Beach Thursday to transact business. The Everglades bus did not return from West Palm Beach Thursday evening as the car had some transmission trouble and the driver, Mr. Walters, had to ride home with F. W. Kirchman. James Lowmire is building a house for colored help. James has quite a crop planted.

Lonnie Martin, who lives between here and South Bay, has been on the sick list.

The Hart Farms have been shipping quite a lot of peas but the price is not very satisfactory.

Old fashioned head cheese is a good luncheon or supper dish with baked potatoes and a cabbage salad. Thinning.

No exchange except during sale.
No merchandise on approval.

TO OUR FRIENDS ALONG THE LAKE.

For our mutual benefit we hope your crops are good for we want to see the Everglades grow. We always go to the lake for our crops.

You need lights, good drinking water or perhaps an engine for drainage purposes. We have it and will place it in your home on good terms. We also have a full line of Refrigerators and "The Kelvinator" the home ice machine which makes all the ice needed for the table and home use. It keeps your ice box cold 365 days in the year.

Our salesman, Mr. McDonald, is in your territory at least once a week and is at your service anytime. We will be glad to quote you prices and terms, either through Mr. McDonald or through the mail.

Yours for future business,

SIDES-DAVIS COMPANY
